PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in frontend and full-stack web development, AI-assisted software development, prompt engineering, PostgreSQL, Prisma, and Python. Passionate about building modern, responsive applications and leveraging AI to solve real-world problems. Seeking Software Engineer, Frontend Developer, Full-Stack Developer, or AI Engineer opportunities.

EDUCATION

B.Sc. Computer Science — Caleb University, Lagos, Nigeria

Expected Graduation: 2026/2027

EXPERIENCE

Frontend Developer Intern — Codeline Technologies and Solutions, Ogba, Lagos

- Developed responsive web interfaces
- Assisted with debugging, testing, and UI improvements
- Collaborated on software development projects

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: PostgreSQL, Prisma ORM

AI: Prompt Engineering, Claude AI, ChatGPT, Ollama, AI Testing, Data Annotation

Tools: Git, GitHub, Vercel, VS Code, REST APIs

SELECTED PROJECTS

- Mophins — AI audio noise-filtration web app (FastAPI, PyTorch, Next.js), deployed live
- Varsity AI — RAG-powered university conversational agent with fine-tuned BERT intent layer
- MindBridge — Mental health & counselling platform (Node.js, Prisma, PostgreSQL, Socket.IO)
- Account Authenticity Detector — bot-probability heuristic engine with cloud analysis mode
- Invenio — role-based inventory management system (Node.js, SQLite)

RESEARCH INTERESTS

Artificial Intelligence, Large Language Models, Prompt Engineering, AI Automation, Full-Stack Web Development, Human-Computer Interaction

SOFT SKILLS

Analytical Thinking, Problem Solving, Communication, Team Collaboration, Adaptability, Attention to Detail, Continuous Learning

CAREER OBJECTIVE

To contribute as a software engineer by building high-quality AI-enabled and web-based solutions while continuously growing my technical expertise.
